

AEROLUX

NO WHIP
Porch Shades

WHEREIN AEROLUX PORCH SHADES ARE DIFFERENT AND BETTER

No Whip—The term "No Whip" indicates that the Aerolux Shade cannot whip or flap in the wind, a patented attachment holding it securely. If you have used a shade other than the Aerolux you will appreciate the superiority of the Aerolux in this respect.

Shade, But Do Not Retard Ventilation—You may draw Aerolux Shades so as to fully cover porch openings, thus entirely shutting out the glare of the sun and keeping out the rain without retarding ventilation. The value of this feature on a hot, sticky day will appeal to you.

See Out But Not In—Openings between the narrow slats of the Aerolux Shades are just wide enough to permit you to see out at the same time preventing anyone outside seeing in, thus giving the privacy of a bed-chamber and still permitting sufficient light and air to enter.

Special Features—Aerolux shades are equipped with a special attachment by which they may be raised or lowered from both top and bottom, simultaneously, leaving any desired opening above and below at the same time, a particularly desirable feature for sleeping porches.

Aerolux Shades, Then, Are—Beautiful, durable, flexible, cool, multi-adjustable and economical. The special features of this shade are patented.

CURRY COUNTY IS IDEAL FOR HOG INDUSTRY

No Case of Cholera Yet Reported; Death Rate Low; Climate Ideal; Profits Are High.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Clovis, N. M., June 3.—"Curry county is the best country to be found anywhere for the raising of hogs," said an authority on that subject a few days ago. "We have never had a case of cholera in this county, so far as is known, and we are practically free from the other diseases peculiar to hogs. Of course, now and then some farmer will have a hog or two to die, but the death rate is very low, practically nothing when you consider the number of hogs there are in this county. The climate here seems to be well adapted to hog raising, rendering them practically free from disease, while with the enormous crops of milo maize, kaffir and Indian corn there is plenty of grain to fatten them to perfection and put them on the market so they will command top prices."

Many Curry county farmers are beginning to realize the fact that a few hogs will, in the course of a year's time, add snug sums to their bank accounts. It is estimated that since the first of the current year not less than seventy-five cars of hogs have been shipped from Clovis to the markets, to say nothing of what have been killed for home consumption. These hogs have sold for in the neighborhood of \$100.00, which amount, less freight charges and other expenses, has gone into the pockets of the Curry county farmers. And there are more hogs in the county now than there were on the first of the year, for the reason that all the farmers who are raising hogs have broad sows which are raising litters of pigs, so that the supply is more than exceeding the demand.

Conditions in Curry county are ideal for the successful raising of hogs. The climate is such that diseases peculiar to hogs are almost unknown, and owing to the cool summers and mild winters the hogs thrive the year around. Then with the splendid grain crops grown here the raisers of hogs have the right kind of feed to properly mature them and put them on the market in the pink of condition, so they will command top prices.

Men who started in a few years ago with only a few brood sows now have a drove of a hundred head or more hogs, and have marketed a goodly number in the meantime, as well as supplying their own tables with meat. In fact, the hog industry, while practically in its infancy here, promises to soon become one of considerable magnitude, as all the farmers are coming to the realization that this is a sure and safe way to make money.

CHINESE PARLIAMENT TO MEET IN AUGUST

(Associated Press Correspondence.)
Peking, May 15.—August 15th is the probable date for the convening of the formal Chinese parliament, which the Tuan Chih-chang cabinet is now arranging for. At a recent meeting participated in by Li Yuan-hung, the vice president, Tuan Chih-chang, premier, and Hsi Shih-chang, former secretary of state, the details for the election of parliament were discussed at length, and it was virtually decided that sixty days at least would be required to revise the laws on the organization and election of the parliament and to examine into the qualifications of prospective members of the parliament. Primary and final elections are to be held and about thirty days will be required to complete these elections after the preliminary arrangements have been agreed upon.

The parliament would undoubtedly be convened in Peking rather than in Nanking or some other city in south or central China. Negotiations for a compromise of the revolutionary troubles have not proceeded far enough as yet to make it clear whether any of the rebellious provinces will participate in the election of selected members to the assembly. However, the Peking government still has control of the great majority of the Chinese provinces, and is legally vested with power to direct affairs, in the opinion of the legal advisers of Yuan Shi-kai and his cabinet.

The cabinet has decided to hold two meetings a week, and the time limit of each meeting is to be three hours.

SEVEN-YEAR DISPUTE ENDS IN TRAGEDY

(BY MORNING JOURNAL SPECIAL LEAD WIRE)
Globe, Ariz., June 3.—A dispute over mining claims that began seven years ago between William Sparks, a pioneer prospector and former sergeant of Arizona rangers, and Frank Thompson, a wealthy mining man, terminated on the main street of Globe late today when Sparks shot and killed Thompson. The old prospector was standing on the street when he noticed Thompson approaching. He drew an automatic revolver and shot five times. Each bullet was effective.

Sparks surrendered to the authorities and stated that he shot because Thompson had been threatening his life.

Observe Jefferson Davis' Birthday.
Washington, June 3.—The 108th birthday anniversary of Jefferson Davis was marked in the house today by speeches of tribute by Representatives Aswell of Louisiana and Mitchell of Kentucky—the first time in the recollection of old members at the capitol when a time has been formally set aside for the occasion.

PROTESTS AGAINST TAX ON COSTLY PAINTINGS
(Associated Press Correspondence.)
Berlin, May 15.—In the name of the Berlin Artists' association, its president, Prof. Rudolf Schulte, has protested vigorously to the proper authorities against the recent ruling that the "war profits tax" shall apply to all receipts of more than one thousand marks accruing from paintings.
The whole tendency of such a ruling, Prof. Schulte contends, will be to depress automatically the prices of works of art to a point below one thousand marks, and thus work injustice and injury to aspiring and ambitious artists or to the families of men who have died recently and who are dependent upon the returns from inherited paintings.
A tax of this sort, Prof. Schulte declares, is nothing more or less than a direct penalty for earnest, energetic, artistic work, and at the same time a distinct encouragement to the producers of copies of famous works of art. Individual effort and initiative, he feels, will suffer inevitably at the expense of initiative work.

Arrowhead Springs
California's Famous Mountain Recreation Resort.
Here are found the only natural Di-Sodium Arsenate steam caves in the world. Waters and mud radio-active. Splendid American Plan hotel. Open daily. Chicken ranch and vegetable gardens. Motion pictures, dancing and other indoor amusements. Beautiful mountain trails and quiet retreats.
